

Technical Specification - ISO Automated System

ARGOS[®]

ISO surface quality

- detects scratches and digs
- for flat and curved surfaces up to 45 mm
- saggital depths up to 1 mm
- < 2 second testing time for whole surface
- 256 MPixels with 5 um resolution
- user independent reproducibility
- automated inspection report
- evaluation acc. ISO 10110-7
- customer-specific adaption
- autofocus option
- full automation upgrade
- ring-zone scanning method, patent pending
